Today we had a visitor at our school. Her name is Michelle. Michelle is a lifeguard. She talked about her job and how to be safe around water. I had a go at being a swimmer.

Michelle told us about the flags and what they mean. She also told us about how they find out where to put the flags.

Michelle got six children to go out the front. Two children were playing with a football, two other children were sitting down, and the last children were playing around. Then the football went in the water. We made a decision to leave the ball. Michelle said “Thank you”.
